

OFFER CALCULATION.
PLANNING. BILLING.

ener-gx¹®

More competition in the european energy market

ENER-GX Sales is the new module in the GAS-X suite designed to meet the requirements of European gas traders and suppliers. Sopra Steria Consulting draws on 25 years of experience in the energy market to make ENER-GX Sales a flexible and powerful package that combines offer calculation, planning and billing.

- Flexible product modelling
- Customisable standard software
- High degree of process automation
- First-class process and consulting know how

One solution for electricity and gas traders

ENER-GX Sales is an integrated **multi-commodity solution**. As such, it supports the offer calculation, billing and sales planning processes for any commodity including **electricity and gas**. The state-of-the-art **time series management** feature supports every market granularity, from 10 minutes to one year and everything in between. ENER-GX Sales provides established market functions, such as management of **stock market products** for electricity and gas or **offer disassembly**. The module also supports **the fixing of prices** during contract maintenance and during automatic **residual quantity calculation** processes.

ENER-GX Sales comes with powerful and flexible **process monitoring** features. An easy-to-read **dashboard** provides a comprehensive overview of all processes. Need more data? Just drill down through various monitoring levels for increasingly detailed information.

Integrating ENER-GX Sales

Offer Calculation

Use ENER-GX Sales and its specialised architecture as a future-oriented system for the European market. Create representations of your products with the highly flexible product creation features in the offer calculation phase.

Discover the benefits of creating offers with ENER-GX Sales:

- Modelling of complex price settings
- Integration with CRM systems
- Creation of short indications
- Automated transfer of offers to billing contracts and plan objects
- Monthly contribution margin calculation or for the entire contract term
- Creation of offer predictions
- Use of external pricing modules

Planning

Combine sales and billing processes with ENER-GX Sales and experience new possibilities when planning quantities, turnover and margins. Data from supported bottom-up planning is linked directly to offer creation and billing processes. Decide which data you would like to provide for further processing.

Discover the benefits of planning with ENER-GX Sales:

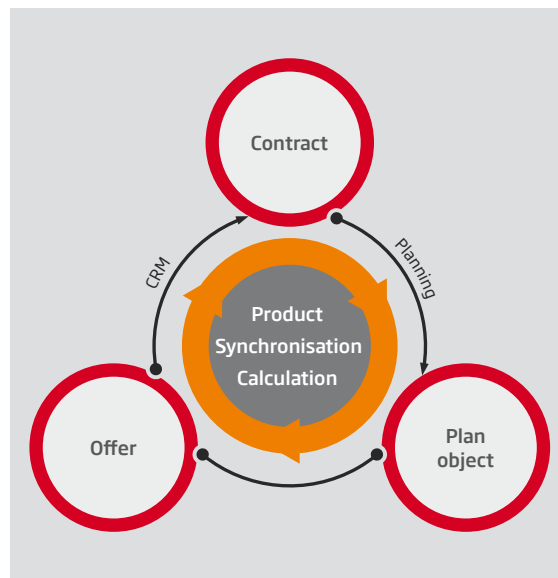

- Quantity, turnover and margin planning
- Autonomous planning versions
- Scenario-based planning frameworks and simulations
- Planning data export for strategic planning
- Use of specific entry and exit objects
- Retrograde scenario simulation for known cost blocks

Billing

Transfer all information from your offers to the billing process automatically and invoice a wide range of product types.

Discover the benefits of billing with ENER-GX Sales:

- Support for product-oriented contracts (e.g.: tranche models) and customisable contract models
- Specialised support for bundle customers: support for multi-tier billing constructs with inter branch compensation.
- Separate modelling of transport and supply components
- Extensive time series and metering point maintenance for energy quantity management
- Price calculations that draw on market price data bases (daily prices, TTF, EEX, PFC)
- Support for multiple currencies and languages
- Process monitoring

The integration with CRM systems and synchronisation of core processes enable real-time retrieval of information from offer processes in planning and billing.

ENER-GX Sales provides standardised interfaces for a wide range of systems:

- CRM systems
- Price databases and pricing tools
- Accounting systems
- Portals
- Portfolio and risk management systems
- ...

ENER-GX Sales is also available as **Software as a Service**.

ENER-GX Sales Out of the Box is a lean alternative to a highly individual software implementation. Run ENER-GX Sales Out of the Box in your company or your hosting provider's data centre or use our SaaS solution and let us do the work.

Benefit from our experience for your success

As one of the leading companies for Management and IT Consulting, Sopra Steria Consulting provides one-stop concepts, solutions and services for energy companies. GAS-X and ENER-GX are leading IT products for handling the core processes of different market roles in the transport and supply sectors. Our teams of experienced consultants will quickly meet your exact requirements.
